

Southern Cancer Center

COVID-19 Visitor's Guide

The health and safety of our patients is our number one priority at Southern Cancer Center. We understand that having the support of our loved ones is important during cancer treatment. While we appreciate that this Coronavirus outbreak is of serious concern, we need to make some changes to our visitors' policy.

Until further notice:

- Visitors will be screened prior to entering patient areas. Any visitor who is coughing or shows other signs of illness should be kindly asked to place a mask on and wait outside.

- Only **one** visitor may accompany a patient to their visit and/or treatment suite if necessary.

- No eating or outside food will be permitted in the office.
- Wash your hands often for at least 20 seconds with soap and water or using an alcohol-based hand sanitizer.

- Refrain from touching your eyes, nose, or mouth with unwashed hands.
- Covering your mouth and nose with a tissue when coughing or sneezing. Discard the tissue and clean your hands. If a tissue is not available, cough or sneeze into your upper sleeve.

Thank you in advance for your cooperation in this matter, please feel free to direct any additional questions you may have to the staff at our front desks.
